GREAT RESOURCES COMING YOUR WAY ALL SUMMER LONG

The Office of University Compliance is excited to announce its “Compliance Summer Series”. Each week we will publish a new issue on UConn and UConn Health policies, compliance tips and guidance. To kick-off our Compliance Summer Series, check out our first issue on the University's Protection of Minors efforts.

Protection of Minors at UConn & UConn Health

The University of Connecticut is committed to promoting a high quality, secure and safe environment for minors who are active in the UConn and UConn Health community.

The Protection of Minors and Reporting of Child Abuse and Neglect Policy and the accompanying procedures establish consistent standards intended to support the University in meeting its commitment to promote the protection of minors who participate in University sponsored activities. Additionally, the policy informs all members of the UConn and UConn Health community of their obligation to report any instances of known or suspected child abuse or neglect.
